### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Since previously amended claim 1 recites *inter alia* "with the proviso that the supporting base material does not contain a filler", which is equivalent to the phrase "free of filler", and may be new matter under the rule of *Ex Parte Grasselli et al.* – Bd. of App. 231 PQ 393, Affd. 738 F. 2d 453 (Fed. Cir. 1984) to the effect that limitations such as "free of" a particular element are new matter in the absence of an express support, the Examiner has requested Applicants to point out pertinent support in the specification. In response, Applicants pointed out that at page 15, lines 15-16, the disclosure "Various kinds of additives and fillers can be added optionally to the mixture ... implicitly discloses that the original mixture does not contain (or "free of") a filler", and Applicants also pointed out what constitute the scope of the "filler" at page 15, lines 20-23. Further evidences of embodiments, which do not contain a filler, can also be found in working Examples and Table 1 (Remarks, page 2, bottom paragraph). In view of the aforementioned supports, the prior rejection under 35 U.S.C. 112, first paragraph is now withdrawn.

Finally, since the prior art reference Fujisawa et al. (US 6262330) requires a base material of a microporous film formed from a resin composition containing a polyolefin resin and an inorganic filler (Abstract), the Examiner notes that the instantly claimed invention is not obvious, nor taught, by Fujisawa et al.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
